

Technical Writer

JP0003-001

magtivio B.V. is a valued partner for routine and research laboratories, as well as in-vitro diagnostics manufacturers. We develop and commercialize a continuously expanding line of magnetic separation solutions. Our main focus is on the biological sample preparation for LC-MS/MS and (U)HPLC analysis in clinical diagnostics / pharma markets and DNA extraction and clean-up kits for R&D and life sciences.

We are looking for a **Technical Writer**

The Technical Writer supports and executes design and development work.

Responsibilities

- Technical writing for documentation of In Vitro Diagnostic Medical Devices
- Writing Product Specifications, Instructions For Use, Safety Data Sheets
- Writing protocols for stability testing, process and performance validation and reporting
- Design transfer from D&D to manufacturing
- Coordinate with the D&D team to prioritize and schedule work to meet deadlines

Qualifications

- At least in possession of a Bachelor degree in biochemistry or molecular biology or comparable education
- Familiar with compliance of IVD Technical Documentation, ISO 13485, ISO 14791, ISO 23640 and ISO 15223-1, ISO 15223-2 and ISO 18113-2
- An accurate and conscientious work attitude
- Work experience in an industrial environment
- Excellent communication skills, both in English and Dutch
- Good knowledge of Word, Excel, Access
- Required competencies: ambitious, analytical, independent, results-oriented
